SUMMARY

AI/ML Engineer with 3+ years building and operating GenAI and agentic systems on enterprise data. Ships multi-agent workflows (LangGraph, MCP) with human-in-the-loop checkpoints and resumable runs, RAG, GraphRAG and Text-to-SQL retrieval, and production ML for a Fortune 500 company, with a focus on making agent behavior reliable, debuggable and cost-controlled in production.

SKILLS

- **Agentic AI & RAG:** Multi-Agent Systems (planning, tool use, memory), LangGraph, LangChain, Model Context Protocol (MCP), RAG, GraphRAG, Text-to-SQL, Embeddings, Vector Search, Guardrails, LLM Evaluation
- **LLMs & Retrieval:** Anthropic Claude API, AWS Bedrock, OpenAI (GPT-4o), vLLM, OpenSearch, Pinecone, Qdrant, FAISS, Neo4j
- **Observability & Operations:** Prometheus, Grafana, Alertmanager, PagerDuty, Datadog, CloudWatch, logs/metrics/alerting, incident triage, root-cause analysis, LLM cost control
- **Engineering & Cloud:** Python, FastAPI, REST APIs, Pydantic, pytest, SQL, PostgreSQL, Amazon Redshift, Airflow, Spark, AWS (Bedrock, Lambda, ECS, API Gateway, S3, IAM), Oracle Cloud (OCI), Docker, CI/CD
- **ML & Responsible AI:** PyTorch, XGBoost, LightGBM, Optuna, scikit-learn, NIST AI RMF model cards, human-in-the-loop review

EXPERIENCE

Machine Learning Engineer | VerticalServe Inc. (contract) | Remote | Aug 2025 – Present

- Built 4 node types (human review, routing, action, control flow) and pause/resume execution for InsightAgent, a LangGraph engine whose LLM planner generates task DAGs, enabling human-in-the-loop checkpoints and resumable runs; shipped an insurance claims workflow.
- Developed 4 agents (Assist, Report, Workspace, Extraction) for InsightAsk, an enterprise AI copilot answering business questions through 3 retrieval paths (Text-to-SQL, RAG, GraphRAG) on Claude, AWS Bedrock and OpenAI.
- Implemented Neo4j GraphRAG and 5 MCP connectors (GitHub, Slack, Atlassian, ServiceNow, Microsoft Graph), plus vision-LLM extraction for 9 document formats with per-field confidence scores.
- Worked on InsightResolve, an agentic incident-resolution (AIOps) product, against a simulated production stack (Prometheus, Alertmanager, Grafana, PagerDuty) across 31 fault scenarios; traced agent mis-triage, missed escalations and runbook-parsing errors to root causes in 16 ranked findings.
- Led a self-improving ML system for a Fortune 500 car rental company in which Claude proposes code changes and test-gated validation keeps only verified gains: 425 experiments for $31 under a hard spend cap, lifting Recall@20% by 9.5%.
- Deployed a GenAI product across 5 AWS services (Bedrock, Lambda, ECS, API Gateway, S3), containerized with Docker and released through CodeBuild-to-ECR CI/CD.
- Built leakage-safe Redshift-to-OCI pipelines moving 34M rows (100–1,000x payload reduction) for weekly champion/challenger retraining, and authored NIST AI RMF model cards.

Data Scientist | Melio Labs | Remote | Mar 2024 – Aug 2025

- Trained Transformer time series classifiers (incl. TARNet) with domain generalization spanning 40+ bacterial species, and packaged 5+ models as Python libraries with CI pipelines.

Freelance Machine Learning Engineer | Self-employed | Jaipur, India | Aug 2022 – Feb 2024

- Launched GPTSahib (gptsahib.com), a live RAG chatbot built with LangChain and OpenAI, and shipped 3 computer vision systems, including livestock recognition on 100+ edge devices.

PROJECTS

Tick & Tie: Multi-Agent Financial Reconciliation | LangGraph, FastAPI, React

- Built a full-stack product in which 5 cooperating agents retrieve, reason over and cross-verify figures in company financial documents, with every flagged mismatch linked to its source evidence.
- Engineered run reliability: per-run LangGraph checkpointing, idempotent tools, retry policies, graceful shutdown and resumable runs, with role-based access control.

EDUCATION

B.Tech | Malaviya National Institute of Technology (MNIT) Jaipur | 2020 – 2024

LEADERSHIP

President, Science & Technology Society, MNIT Jaipur: directed a 250+ member organizing team for Sphinx, the institute's techno-management fest.
